

TECHNICAL DATA

HARDWARE COMPONENTS

- Dual RTK GNSS - IP67
Global Reach with Triple-Band Sattellite Tracking:
 - GPS: L1, L2, L5
 - GLONASS: L1, L2, L3
 - Beidou: B1, B2, B3
 - Galileo: E1, E5a, E5b, E6
- IMU Sensors - 100Hz, IP68/69K, Shock resistant
Blade sensor
- GNSS antennas
Rugged antennas & masts + coil cables
 - Shock and vibration resistant
 - 4 different heights
 - Blade mounted
- Robust display - IP68 MIL-STD-840
- Industrial Router - 4G LTE, Wi-Fi - IP30
- Wifi: 2.4 GHz & 5 GHz

SUPPORTS

- Flexible solution for all dozer types
- Corrention data: CMR, CMR+, RTCM 3.X
- Support for external radio brands:
Satel, Topcon, Trimble
- Filetypes: DXF, LandXML & KOF

GNSS ANTENNAS

RECEIVER

ANDROID TABLET

SENSOR

GENERAL FUNCTIONS

- Automatic Blade Control
- 6-way Automatic Blade Control
- Joystick Integration
- Automatic Side-Shift Control
- Real-Time 3D Visual Guidance
- Custom-made job types
- Create designs
- Surface logging
- Screen share - remote assistance
- Easy Blade Wear Calibration
