Matterport®
Schematic Floor Plans

Do you know you can easily generate a professional 2D floor plan from your Matterport digital twin?

Do you know you can easily generate a professional 2D floor plan from your Matterport digital twin? Floor plans are essential marketing tools for visualizing the layout and measurements of a property. They can help potential buyers better understand the space and decide if it's the right fit for their needs.

Matterport's floor plan service offers an affordable way to create professional-grade schematic floor plans without extra appointments or visits.

Matterport schematic floor plans are generated from the same data as your digital twin, which means there's no need to return to the property to collect measurements. All it takes to create one is a few clicks within your digital twin. We deliver the final product in PDF and PNG formats, complete with room labels and measurements, making it easy for buyers to visualize the space and plan their future designs.

Quick turnaround.

With quick turn-around options of just 6, 24, or 48 hours, you can get your schematic floor plans faster and with less hassle than taking manual measurements. Our floor plans are ideal for property marketing collateral and for use by homeowners to plan furniture layouts and home renovations.

With our convenient and hassle-free service, you can rest assured that you're getting a high-quality floor plan that will help you showcase your property in the best possible light.

Fast, easy, and cost-effective.

With any paid Matterport subscription, you can get a floor plan within 48 hours.

Need it faster? Get Express (6 hours) or Fast (24 hours) for an additional fee.

- **Delivery** within 2 business days
- Floor plans are delivered in a ZIP file that includes both **PNG** and **PDFs**.
- Each individual floor delivered in PNG format as a **separate file**

- **All floors** together are delivered in one PDF
- Rooms on the property that are not scanned will **not be included** in the area calculation on the floor plan

How to order your floor plan:

- Log into your my.matterport.com account and select a model under All Spaces.
- Click on the Add-Ons tab.
- Select Schematic Floor Plan.
- **Place your order!**

Recent Schematic Floor Plan Enhancements

We've unveiled new enhancements to our RICS-standard schematic floor plan offerings to elevate property listings, increase revenue on every job and kick-start projects with a simplified layout.

Previously only available in black and white, our popular and affordable 2D floor plans are now available with more customization options, with customers now able to access color floor plans, with or without furniture, logo customization, and language options for English, French, Spanish, German, and Italian.
