

CombiRangeXtender 40

Laser receiver for all line lasers with RX- and GRX-READY technology

Rev.1015

– With RX- and GRX-READY, the laser lines pulsate at a high frequency. The CombiRangeXtender 40 detects the red and green laser lines up to 40 m away thanks to the pulsation.

- **Fast alignment work** in close and long range
- **High-Speed:** Very fast detection of laser lines
- **Head and side magnets**
- **The universal mount** enables the device to be attached to levelling staffs.
