CrossDot-Laser 5P

Cross-line and 5-point laser with hand receiver mode and 360° magnetic base

Rev18W04

- **PowerBright-Laser:** Special high-performance laser diodes project extremely visible laser lines.
- This unit produces **2 very visible laser lines** which make it outstanding for the alignment of tiles, wall studding, windows, doors, etc.
- The **5 laser points** are placed each in 90° on the horizontal and vertical level of the laser lines. On the edges of the laser lines there are formed 3 intercept points out of laser line and point.
- **The plum and ceiling points** allow markings to be easily transferred from the floor to the ceiling.
- With the **360° magnetic base** the device can be used individually or in combination – on walls and attached to magnetic objects
- **Automatic Level:** automatic alignment by virtue of a magnetic pendulum system.
- **Tilt mode is an additional feature** that permits gradients to be laid out.
- **Individually switchable** laser lines
- **Out-Off-Level:** is indicated by optical signals when the unit is outside its self-levelling range.
- **RX-Ready:** The integrated hand receiver mode detects the laser lines with the optional laser receiver RX up to a max. of 40 m radius – ideal for all interior and exterior applications.
- **Transport lock:** A pendulum lock protects unit during transport.
