## How to connect Samsung Tab Active 2 Tablet to iPhone

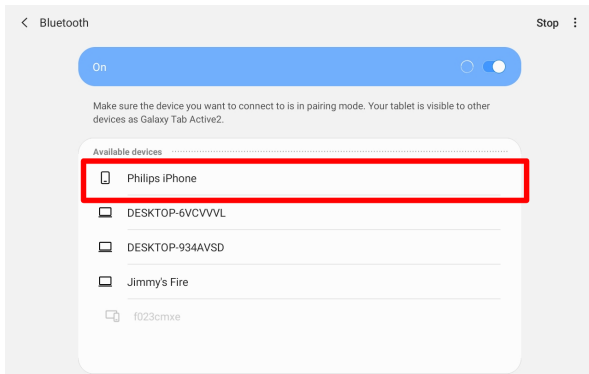

Created: 20201006\_PH

Turn on Personal Hotspot on your iPhone > Settings > Personal Hotspot > Allow others to join = On

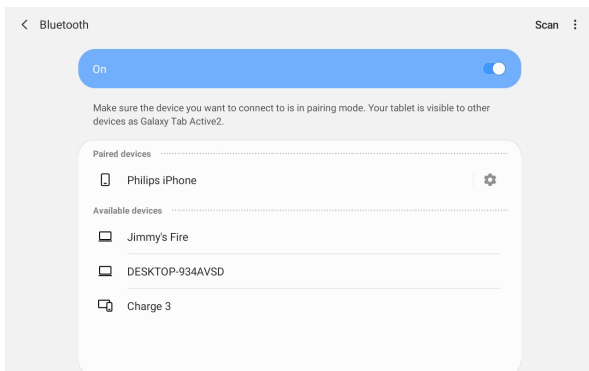

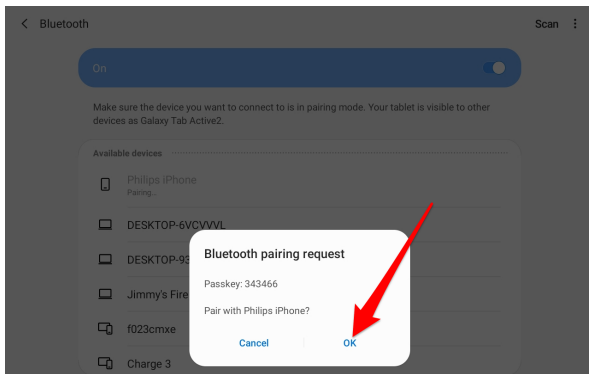

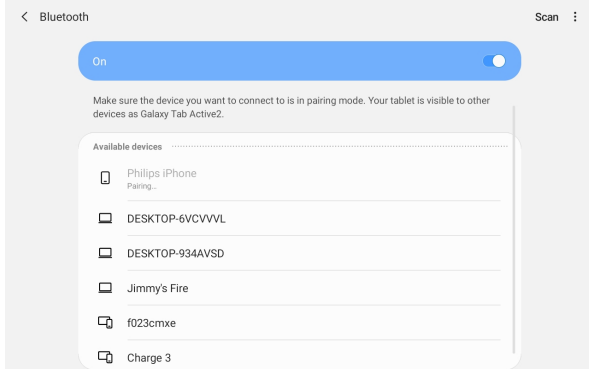

Pull down from the top of the screen and the Settings menu will appear

If your iPhone appears in the list, tap on it.

If your iPhone does not appear in the list turn OFF Bluetooth and turn it back ON again, your phone should then appear in the list.

Your iPhone should now be paired with the Samsung tablet.

This icon confirms that you are connected to the internet.
